

WM600 MANUAL CASSETTE STEP

Step Operation

The WM600 manual cassette step is deployed by a damped gas spring which is activated by simply pushing the tread edge in a small distance with your foot and releasing. Once deployed, the tread is automatically locked in that position by a patented catch system which is activated by the weight of the person standing on the tread. The step is simply stowed by pushing the tread fully in by foot until the over-centre latch engages. There are no vulnerable release pedals required to operate the step.

Standard Equipment

- Extruded Anodised Aluminium ribbed tread profile
- High grip Yellow and Black Rubber Strip to tread top edge
- Soft Rubber Cushion Strip to leading edge of tread
- Extruded Anodised Aluminium Side arms
- Rubber Weather Flap to underside of Tread
- High visibility corner mouldings
- Damped gas spring
- Galvanised Steel Case
- Stainless Steel Rails
- Nylon Rollers
- Over-centre latch mechanism
- Patented deployed lock-out mechanism
- Limit switch

Options

- Corner Tread Flashing Lights
- Under Tread Lights
- Vehicle Mounting Kits for suitable vehicles
- Wire loom kit consisting of:
 - Wire loom
 - Control Unit
 - Dash switch
 - Dash warning light

Dimensions

- Tread size deployed: 260mm x 610mm
- Tread edge from sill lip deployed: 315mm
- Tread deployment movement: 205mm
- Minimum projection of case below sill height: 68mm
- Case depth behind sill lip: 365mm*
- Closed tread projection out from sill lip: 110mm*
- Overall width of case: 688mm

*Can be varied – depending on mounting brackets used

Weight

17kgs

Warranty

12 months on site with option at time of purchase to increase for a further year subject to approved service and maintenance.
Complies with all current legislative requirements.
CE marked.

The Company has a policy of continual improvement and reserves the right to change the product specifications without notice
