

SE800 ELECTRIC CASSETTE STEP

Step Operation

The SE800 electric cassette step is powered by a Stayco all metal geared electric motor with twin-arm activation links to the tread. The motor unit contains magnetic micro switches for improved tolerance to dirt and cold. In the event of a power failure when the step is deployed, the tread can be disconnected easily from the motor link arms and then manually closed.

Dimensions

Tread size deployed: 300mm x 800mm
Tread deployment movement: 245mm
Projection of case below sill height: 65mm
Case depth behind sill lip: 470mm
Closed tread projection out from sill lip: 55mm
Overall width of case: 888mm

Standard Equipment

Extruded Anodised Aluminium ribbed tread profile
High grip Yellow and Black Rubber Strip to tread top edge
Soft Rubber Cushion Strip to leading edge of tread
Extruded Anodised Aluminium Side arms
Rubber Weather Flap to underside of Tread
High visibility corner mouldings
Galvanised Steel Case
Stainless Steel Rails
Nylon Rollers
12V Stayco geared twin-arm motor unit
Magnetic Micro Switches

Weight

20kgs

Options

Corner Tread Flashing Lights
Under Tread Lights
Deploy Interrupt
24v Motor
Vehicle Mounting Kit
Wire loom kit consisting of:
Wire loom
Control Unit
Dash switch
Dash warning light

Warranty

12 months on site with option at time of purchase to increase for a further year subject to approved service and maintenance.
Complies with all current legislative requirements.
CE marked.

The Company has a policy of continual improvement and reserves the right to change the product specifications without notice
