Important

Activation LEHMDIS functions

- If a function was activated with LEHMDIS it is imperative to deactivate with LEHMDIS as well.

Cancelling LEHMDIS commands

- To cancel LEHMDIS commands switch off the engine.

Troubleshooting

- If a button gets stuck, the transmitter stops its transmission after 25 seconds. The other buttons are no longer usable.

In the Event of an Accident

Should your vehicle be involved in an accident your controls should be checked by the fitter before use.
